Scaling Bioenergy Solutions for a Sustainable and Self-Reliant India

प्रकृत्या सह जीवनम्

living in harmony with nature—the Bharat Bio Energy Association (BBEA) envisions an energy-secure, ecologically balanced, and economically inclusive India.

VISION AND MISSION

EMPOWERING COMMUNITIES, ENERGIZING INDIA

VISION

Powering India's clean energy future through community, sustainability, and regenerative growth.

MISSION

To power a sustainable future by uniting innovation, community, and clean energy.

“BBEA accelerates India's clean energy transition by integrating innovation, policy, and community action. We advance bioenergy and green hydrogen solutions that convert agricultural and organic resources into sustainable energy, resilient livelihoods, and measurable climate impact—driving a regenerative economy for the future.”

Who We Are

The Bharat Bio Energy Association (BBEA) is a pioneer, distinct, and neutral industry platform, founded under the leadership of Mr. Anish Kumar, Founding Director.

With over two decades of experience in rural transformation, institution building, and livelihood development, **Mr. Anish Kumar (Co-Founder & Managing Director of Transform Rural India Foundation)** has been at the forefront of connecting grassroots realities with national policies. He has played a pivotal role in building farmer-owned enterprises, policy dialogues, and sustainable community models, giving BBEA a strong foundation of credibility, inclusiveness, and action orientation.

We are:

- **Legally Recognized & Compliant:** Registered under NGO and CSR-DARPAN, with 12A, 80G, and CSR-1 certifications, enabling partnerships with government and corporates.
- **Distinct & Inclusive:** A first-of-its-kind platform that integrates policy, technology, and community action for systemic impact.
- **Community-Centric:** Driving the transformation of crop residues, agri-waste, and decentralized resources into clean energy, resilient livelihoods, and climate solutions.

HOW WE ADD VALUE TO THE ENERGY TRANSITION

Policy Advocacy

Shaping progressive policies and regulations to foster a supportive ecosystem for bioenergy and green hydrogen.

01

Knowledge Sharing

Disseminating cutting-edge research, best practices, and technological advancements to accelerate adoption and innovation.

02

Project Incubation

Facilitating the development and deployment of pilot and demonstration projects in diverse regions.

03

Capacity Building

Offering training programs and workshops to equip stakeholders with the necessary skills for project implementation and operation.

04

Investment Facilitation

Connecting innovative projects with potential investors and financial institutions to unlock funding opportunities.

05

BUILDING A SUSTAINABLE AND INCLUSIVE FUTURE

Beyond policy and knowledge, BBEA actively engages in initiatives that deliver tangible benefits on the ground. We believe in a holistic approach to energy transition:

- **Community Engagement:** Empowering local communities through awareness programs and skill development in bioenergy practices.
- **CSR Partnerships:** Collaborating with corporate social responsibility departments to fund and implement sustainable energy solutions in underserved areas.

- **Ecosystem Building:** Creating a collaborative ecosystem that links policy, academia, industry, and rural communities for sustainable bioenergy adoption.
- **Global Collaboration:** Forging international partnerships to bring global expertise and technologies to India.

Partnership & Collaboration Opportunities

We welcome forward-thinking partners to co-create a sustainable, inclusive, and impactful energy ecosystem in India.

Government & Policy Partners

- Policy consultation and advisory for state and national bioenergy initiatives
- District-wise biomass mapping and field studies
- Development of sustainable energy policies and regulatory frameworks

Research, Knowledge, & Impact Studies

- Sectoral reports and policy research on bioenergy and green hydrogen
- Decentralized energy impact assessments (DEC studies)
- ISO certifications, standards development, and technical knowledge sharing

Events & Stakeholder Engagement

- Industry workshops, conferences, and knowledge-sharing sessions
- Multi-stakeholder roundtables to align government, industry, and community priorities
- Awareness campaigns to promote sustainable energy practices

Industry & CSR Partners

- Funding pilot projects and community programs
- Capacity building and skill development for rural communities
- Joint initiatives for technology adoption and energy access

BBEA Founding Circle (Lifetime Membership – ₹5,00,000)

As a Founding Circle Member of Bharat Bioenergy Association, your organisation will gain a position of enduring influence and visibility in India's bioenergy sector.

Exclusive Benefits:

Strategic Policy Voice – Priority representation in BBEA's consultations with ministries, regulators, and state governments.

Leadership Positioning – Guaranteed speaking slots at flagship BBEA conferences, national dialogues, and international forums.

Brand Authority – Premium logo/name placement across BBEA collaterals, reports, newsletters, and the official website as part of the Founding Circle.

Knowledge Co-Creation – Rights to co-host expert roundtables, policy dialogues, and sectoral whitepapers under the BBEA banner.

Dedicated Engagement – Relationship manager to facilitate collaborations, partnerships, and visibility opportunities.

Lifetime Recognition – Permanent acknowledgment as part of the Founding Circle in all future BBEA publications and communications.

JOIN

US!

BBEA Annual Membership (₹10,000 per year)

For organisations, institutions, and individual collaborators seeking to engage with India's growing bioenergy sector.

Member Benefits:

- **Networking Access** – Invitations to BBEA webinars, workshops, and annual events with industry, academia, and government stakeholders.
- **Policy Insights** – Access to policy briefs, sector updates, and BBEA research reports.
- **Visibility** – Name/logo listed on BBEA's website and select event collaterals.
- **Collaborative Platform** – Opportunities to partner on research, pilot projects, and knowledge-sharing activities.
- **Discounted Access** – Preferential rates for BBEA events, trainings, and publications.
- **Community Recognition** – Certificate of Membership and inclusion in the annual BBEA Member Directory.

Why BBEA is the Ideal Partner

An independent platform uniting innovators, policymakers, farmers, investors, and academic institutions, cultivating a vibrant ecosystem that accelerates India's bioenergy landscape

A Multi-Stakeholder Catalyst

Grassroots Action, Lasting Impact

Policy & Ecosystem Expertise

A Vision Rooted in Sustainability

Knowledge & Collaboration Hub

THANK YOU!
